OBJECTIVE

Desired Position: Junior Front-end Developer (React).

WORK EXPERIENCE

1 year+ project-based experience as a front-end developer, during which I successfully delivered various projects for clients. This includes a confidential NDA Project for a university and a full-featured e-commerce website for a trailer sales company. In both roles, my focus was on transforming design mockups into functional, responsive web applications while maintaining high code quality.

SUMMARY

A dedicated Front-end Developer specializing in **React**. My strong foundation in Computer Science is complemented by comprehensive training in Front-End, Node.js, and React at Hillel IT School. I am passionate about creating intuitive and effective web interfaces and am eager to apply my skills and grow with your team.
